## ARE YOU A SECOND-CLASS CITIZEN?

"Students get a free ride, so they don't matter," say opponents of Light Rail Transit. "They should be happy with the bus."

Think of the last time you rode the iXpress pressed against a fellow traveller's armpit.

You pay for this service on every tuition bill. Shouldn't you be treated like a customer? Wouldn't you like more room to breathe?

Light Rail vehicles have 4 times more space than an iXpress bus, a smoother ride, and more doors for getting on and off.

If you don't speak up now, Regional Council will hear only anti-transit NIMBYs and naysayers, and install an inferior bus-based solution.

We can do better. Now is the time to stand up for Light Rail Transit – use the URL below to tell your Regional Councillor to vote for LRT.

With LRT, we can all breathe a little easier.
